

YOUTH FISHING CLASS

Learn the basics of fishing! Sandy Parks & Recreation are conducting angler fishing & fly fishing classes. Each week participants learn a new aspect of fishing, such as casting, safety, knots, equipment and more. A great way to encourage kids to get involved with the natural world and active outdoor interests. Participants spend the first 30 minutes of each class learning about fish, where they live, and how to catch them. Then, adult volunteers help the kids use their new skills to catch fish. Adult supervision is required during classes. Class size is limited, please register early!
